**Email:** [vincentwoglo@gmail.com](mailto:vincentwoglo@gmail.com)

## SKILLS:

MailChimp, Google Analytics, Litmus, Photoshop, Figma, Adobe XD, Git, Gulp, Editor X, Javascript, ReactJS, SEO, WordPress, Html5, Css3, Facebook ads, Google Suite, Shopify

## EXPERIENCE

### 3:5 Creative[s] — Wordpress Developer intern

*October 2022 - Present*

Work in a high paced environment along a design team to build **Wordpress** sites for clients. Used **PHP**, **HTML**, **CSS**, **WpEngine**, and **Wordpress plugins** such as **Advanced Custom Fields(ACF)** and **Elementor page builder** to build custom themes when suitable.

### NextCloud — Open Source Contributor

*August 2022 - Present*

Fixed grammatical errors in documentation and bugs in the front-end.

### Childs Cup Full, Tulsa, OK — Front-End Intern

*January 2021 - February 2021*

I worked with this non-profit organization to update their website. My team and I had to come up with a UI design in **Figma** and convert it into a working site using **Editor X**. I designed the front page and the “about us” page of the site.

### Lotus Meteor Shower — Content Manager

*July 2019 - May 2020*

Managed content on school news websites with **Wordpress**. I worked with multiple teams such as writers and photographers to publish articles.

## EDUCATION

**Community College Of Aurora, Aurora, CO**

*July 2021 - Current*

## PROJECTS

### [Floko Landing Page](#) (*ReactJs, Css/Scss, Gulp*)

This is a landing page designed in Figma that I turned into a working site with **React Js**.

### [FindTrend Landing Page](#) (*ReactJs, Css/Scss, Gulp*)

This is a landing page designed in Figma that I turned into a working site with **React Js**.

### [Christ Liberty Restoration](#) (*Wordpress Website*)

This is a website I managed for Christ Liberty Restoration. I **updated the content weekly** and also **cleaned up some UI problems**

[DevDojo Email](#) (*HTML & CSS*)

This is an email I built with HTML & CSS. I used HTML tables to build it.

[MicroCenterCoupon Email](#) - (*HTML & CSS*)

This is an email I built with HTML & CSS for an email I received from Micro Center. I used HTML tables to build it.

[Hope For Prison Ministries](#) (*Wordpress Website*)

This is a website built for a client now known as Good Samaritans Prison Ministries. I **fixed typography, spacing, color and other issues** while managing the website for this client.
