Koffivi V. Woglo

Looking for a company that will challenge my skills. My goal as a developer is to help businesses grow.

GitHub: https://github.com/VincentWoglo   **Portfolio:** https://koffiviwoglo.site/

Email: vincentwoglo@gmail.com

SKILLS:

MailChimp, Google Analytics, Litmus, Photoshop, Figma, Adobe XD, Git, Gulp, Editor X, Javascript, ReactJS

EXPERIENCE

NextCloud — Open Source Contributor
August 2022 - Present

Fixed grammatical errors in documentation and bugs in front-end.

Childs Cup Full, Tulsa, OK — Front-End Intern
January 2021 - February 2021

I worked with this non-profit organization to update their website. My team and I had to come up with a UI design in **Figma** and convert it into a working site using **Editor X**. I designed the front page and the "about us" page of the site.

Lotus Meteor Shower — Content Manager
July 2019 - May 2020

Managed content on school news websites with **Wordpress**. I worked with multiple teams such as writers and photographers to publish articles.

EDUCATION
Community College Of Aurora, Aurora, CO
July 2021 - Current

PROJECTS

Floko Landing Page *(ReactJs, Css/Scss, Gulp)*
This is a landing page designed in Figma that I turned into a working site with **React Js**.

Christ Liberty Restoration *(Wordpress Website)*
This is a website I managed for Christ Liberty Restoration. I **updated the content weekly** and also **cleaned up some UI problems**

DevDojo Email *(HTML & CSS)*
This is an email I built with HTML & CSS. I used HTML tables to build it.

[**Hope For Prison Ministries**](#) *(Wordpress Website)*
This is a website built for a client now known as Good Samaritans Prison Ministries. I **fixed typography, spacing, color and other issues** while managing the website for this client.

[**MicroCenterCoupon Email**](#) - *(HTML & CSS)*
This is an email I built with HTML & CSS for an email I received from Micro Center. I used HTML tables to build it.
