EXPERIENCE

Childs Cup Full, Tulsa, OK — *Front-End Intern*

January 2021 - February 2021

I worked with this non-profit organization to update their website. My team and I had to come up with a UI design and convert it into a working site using Editor X. I designed the front page and the "about us" page of the site.

EDUCATION

Community College Of Aurora, Aurora, CO

July 2021 - Current

I'm currently majoring in AAS Programming.

Lotus School For Excellence, Aurora, CO — *Diploma*

July 2012 - May 2021

While Attending Lotus School For Excellence, I took part in my robotics club and helped my team to the Colorado championship. I also took place in the cyber security club.

PROJECTS

DoorChef Prototype

I built a prototype idea for a food listing platform where chefs can list their food and users can view them to contact them. Users have the ability to register and sign in to the platform. They are also allowed to search for meals. This platform was built with PHP, MySql, Ajax, Jquery, HTML & CSS

DevDojo Email

This is an email I built with HTML & CSS. I used HTML tables to build it because it's very stable to use to solve most email clients compatibility issues.

SKILLS

HTML, CSS/Sass, JavaScript, ReactJs, PHP, MYSQL, Figma, Adobe XD, Editor X, Photoshop, Git, Gulp

Other Projects

Walmart Email

CCA Email

This is an email I built with HTML & CSS for a scheduled appointment. I
used HTML tables to build it.
